

*“GO AHEAD. BE A KNOW-IT-ALL.  
YOUR CLIENT WILL  
THANK YOU.”*

## VENIO FPR™ GIVES YOU THE POWER TO KNOW YOUR DATA—ALL OF YOUR DATA—NOW AND KEEP YOUR CLIENTS' COSTS LOW

**The truth is**, when a case is filed, the clock starts and everything seems to be about time, money and how you are going to be able to gain the upper hand. It becomes your responsibility to know—know everything and develop a winning strategy for your client. Oh, and did we mention time and money?

**A recent LexisNexis study** found that early-case-assessment (ECA) accounts for 76% of favorable outcomes and for 50% reduction in litigation expenses. Sounds great, right? Unfortunately, 64% of the attorneys surveyed said that time was the greatest barrier to effective ECA and, as we all know, time

is money. With the first-pass review and early case assessment software, Venio FPR™, you will gain an immediate comprehensive look at your relevant data to generate the best discovery plan for your client with a reduced risk of spoliation and inadvertent disclosure.

**Venio** understands that an attorney does not have time to maneuver around software limitations or the money to spend to ensure the software is compatible with other established eDiscovery tools. With Venio FPR™, there are virtually no limitations.

## Key Features of Venio FPR™

- Easy Set-Up & Access
- Review & Cull Unlimited Amount of Data
- Simultaneous Load and Review
- Secure Web Interface
- Full Native Export to ANY industry standard litigation support applications
- Foreign Language Identification
- Email Domain Analysis
